50 years!

# LETTER FROM THE BOARD PRESIDENT & CEO

Dear Friends,

In 2017, Boys & Girls Clubs of Huntington Valley proudly celebrated 50 years of helping kids reach their full potential. We started small, with just a Quonset hut and a few dozen kids back in the 1960s. Today, we are making a difference to more than 10,800 children each year in seven dedicated facilities, built to make the most of kids' out of school time. Your support is what has made it possible for the Club to grow, change, and do all that we can to meet our community's ever-growing need for top quality youth programs.

For 50 years, the Boys & Girls Club has been giving the kids in our community the help they need to grow up to be somebody great. With such a long history in this community, if you live in Huntington Beach or Fountain Valley, we guarantee that some of your friends, neighbors, and colleagues grew up at the Club and it helped shaped them into who they are today.

While we look back with pride on all that we have accomplished, making a difference to the kids who have needed us the most over the last decades, we know one thing for sure. The work isn't done yet. Today more than ever, the kids need us to step up and help. We want them to grow up to have a great future and we know you do, too. The kids in our community deserve a place to become the great people they are meant to be, using all their gifts, talents, and potential to the fullest.

The Club helps kids succeed in every area of life thanks to programming focused on academics, life skills, character building, career development, athletics, recreation, the arts, family support and more. That's all because of you, choosing to be part of the Boys & Girls Club family and being as generous as you can as a donor and a volunteer.

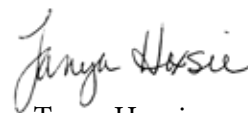

When you make that commitment to our community's kids, you are changing lives for the better. Giselle, a Club member at our Oak View Branch recently told us, "Before the Boys & Girls Club opened up, I couldn't imagine a future for myself outside of Oak View." She imagined her future playing out in poverty, in a neighborhood filled with gangs. "Now, I'm going to be the first person in my family to go to college next year, and I know there are great things ahead in my future. I wouldn't be where I am today without the Club." As you can see, your support has a profound influence on the lives of the kids in our community who need the Club the most.

Thank you for being with us through our first 50 years and we're so glad that you're part of the Boys & Girls Club family as we look ahead to the next 50 years of making a difference to our community's kids!

With gratitude,

Steve Nagel  
President  
Board of Directors

Tanya Hoxsie  
Chief Executive Officer

## Our Mission...

is to inspire and enable  
the healthy development  
of all young people,  
especially those  
who need us most,  
to realize  
their full potential  
as productive,  
responsible,  
and caring members  
of our community.

# A PLACE TO BECOME EDUCATED

There's something very special about our Kingston Technology Family Campus. The three building complex, with a preschool, school age Club, and a gymnasium, is located on campus at Golden West College, a community college in Huntington Beach. This special location offers tremendous potential for educational opportunities for both kids and parents.

At the Family Campus, the Club serves infants through teens, and the college picks up right where the Club leaves off. We want kids to grow up feeling like going to college is the natural thing to do after high school. But, the Club believes we can't give kids the expectation of going to college without backing it up by preparing them to succeed in college. From our youngest kids to our teens, the Club makes it a top priority to get kids on track and help them succeed in school.

In summer 2017, the Club bused 150 kids from the Oak View neighborhood to the Family Campus's Pacific Life Foundation Branch every day. Oak View is a one square mile community in Huntington Beach where 10,000 people are living in extreme poverty. Most parents are unable to help with schoolwork due to a language barrier and their own lack of formal education. Many of the kids are struggling academically. In fact, at the start of the summer, more than half the kids were reading below grade level. The Club stepped in to make a big difference.

All summer long, the kids from Oak View joined in the Pacific Life Foundation Branch's regular programming and also had a special reading program just for them. For an hour a day, kids read and did activities that brought literature to life, like acting out scenes from the books, writing a new ending for a story, illustrating a scene from a story, and having group discussions. The summer reading program made a big difference. 84% of all the kids in the program improved their reading by at least one full grade level. Half improved by two grade levels. Some kids even improved their reading by 5 grade levels!

The learning didn't stop there. After kids finished their reading program hour, they had free choice of any activity at the Club. Those activities were full of fun opportunities for learning! Kids got to do fun STEAM challenges like building a bridge, a pulley system, a musical instrument, and a simple circuit. They made a solar system, launched rockets, made moon sand, and made constellation art. They even got to explore a space museum in New York City via a Skype tour with a docent there! The kids made fossil replicas, created "cave paintings," dug for dinosaur bones, found prehistoric plants and bugs in amber, made a volcano, and tons more activities throughout the summer. Thanks to hands-on FUN projects, instead of experiencing summer learning loss, kids at the Club were gaining ground all summer and started the school year ready for success!

How you  
CHANGED  
LIVES  
in 2017

**84%**

of ALL the kids in  
the KidzLit summer  
reading program  
improved at least  
one grade level.

# How you CHANGED LIVES in 2017

**70%**

of the Club's 10,800+ members come from Huntington Beach and Fountain Valley.

**30%**

come from 66 cities throughout Orange County and surrounding areas.

# A PLACE TO BECOME A GOOD NEIGHBOR

Boys & Girls Clubs of Huntington Valley is much more than just a safe place for kids to spend their out of school time. We're here to help kids reach their full potential. To accomplish that big goal, we start small, with kids' most basic needs, like making sure they get enough to eat or have clothes to wear. In 2017, more community partners than ever stepped up to help the Club give kids just what they need to thrive. Here are just a few of the amazing ways that community partners helped the Boys & Girls Club meet the needs of kids and families in 2017.

- The Club partnered with 43 schools in four school districts to provide before and after school care for their students.
- Our Kingston Fountain Valley Branch got a brand new playground for the kids thanks to KaBOOM!, Foresters Financial, Kingston Technology, and many local businesses and groups who helped fund it and the 200 volunteers from throughout the community who built the playground in one day!
- Every child at the Club's school age branches gets a healthy meal every day they come to the Club thanks to partnerships with Chef Bruno Serato's Caterina's Club and Second Harvest Food Bank.
- Kids in our Twilight Education project get backpacks full of food for the weekend thanks to the generosity of Surf City Rotary Club.

- The children in our programs who are most in need were able to buy clothing essentials and shoes through partnerships with the Huntington Beach Auto Dealers Association, Assistance League, and Surf City Rotary Club.
- Kids at our Oak View Branch got backpacks full of school supplies at the start of the school year thanks to donations from Kingston Technology.
- Children received toys and special holiday experiences to remember through partnerships with Orange County Toy Collaborative, Surf City Rotary Club, Fountain Valley Kiwanis, Hyundai Motor America, and many other generous partners.
- Parents got help going back to school thanks to scholarships from Golden West College for college students' children to attend the Boys & Girls Club's on-campus preschool and after school programs.

We can't thank these community partners enough for helping the Club make a difference to families in all the ways that they need the most! If you have a special idea for a community partnership or you'd like to help the kids at the Club as a volunteer, you can contact Development Director Laura Portier-LaLumiere at 714-309-4962 or [laura@bgchv.com](mailto:laura@bgchv.com).

# A PLACE TO BECOME A STAR

Whether they are stars on the stage or the sports arena, kids at the Boys & Girls Club are given a chance to shine through the ClubHouse Academy Center for the Performing Arts and Fitness. The Club offers 101 performing arts and fitness classes every week in dance, theatre, gymnastics, martial arts, music, and more. The Club's arena soccer and basketball leagues teach kids the fundamentals of the game and give every kid the chance to be a star player with more than 950 games played annually by nearly 1,700 league members.

In 2017, three of the Club's members earned national recognition for their accomplishments, commitment, and dedication through the Hank Aaron Chasing the Dream scholarship. This scholarship program helps talented youth pursue their gifts by supporting the cost of furthering their skills in their special talent area. These scholarships are given to just 44 Boys & Girls Club members nationwide. The Club is extremely proud that, this year, three of this elite group of talented teens come from our Club! Club members Amanda Hay and Sydney Horner are both pursuing their talents in the performing arts, focusing on dance and theater, and Club member Aaron Perez is chasing his dream on the basketball court.

Year after year, the Club's performing arts and sports programs help youth overcome their personal challenges and fulfill their own unique potential.

Chasing the Dream scholarship winner Sydney Horner shared her story of how the Club's arts program helped her overcome a severe social anxiety disorder in Boys & Girls Clubs of America's 2017 video contest, called #BGCmade. Her video got thousands of votes on social media and ultimately earned a \$1,000 grant for the arts programs at the Club that have helped Sydney so much.

In the video, Sydney says, "I know for certain that I would not be who I am today without the Club. In these past 9 years, I have changed from a child fearful of never being able to communicate with others and live to her full potential to a young woman who is confident, unafraid, and ready to enter into a great future with the amazing potential the Club has given me. I am 100% Boys & Girls Club made."

Your support has helped build the Club's arts and sports programs into something extraordinary that truly changes children's lives for the better, even laying the foundation for successful careers in these competitive fields for our alumni. We are proud that their great futures started at the Boys & Girls Club. As we look forward to the next 50 years, we thank you for your continued support that will give countless more children a place to become actors, dancers, musicians, and athletes who are fulfilling their potential and becoming their best selves.

**105**

computers are  
available for kids  
to use every day at  
our Club sites.

# A PLACE TO BECOME CREATIVE

Most people might think that everyone has a home computer with internet access these days. But, that simply isn't the case, especially for low-income families like the ones the Club serves. According to Pew Research, among all households, more than 25% do not have home computer internet access. Among low-income families, the number who have no home computer internet access jumps to 47%.

Nearly half of low-income households like those the Club serves can't provide their kids with the educational opportunities that come with having access to the

internet and computer technology. The Club has computers available for kids to help bridge that gap and make sure that kids from low-income backgrounds are not falling behind their more affluent peers when it comes to technology access and education.

Each of our Clubs has a technology lab with 20 or more computers that kids can use to complete their homework. Our teen centers, kindergarten classrooms and even our preschool classrooms are also equipped with computers to help kids learn the latest technology. Thanks to their time at the Club, kids can type papers and do internet research to keep up with their homework. They can extend their learning using programs like Khan Academy and Gigi math. They can play fun computer games, learn coding, and lots more.

In 2017, the Club took its digital arts programming to the next level and introduced kids to the Adobe Creative Cloud family of programs. Kids had lessons in how to use real world programs like PhotoShop, Illustrator, and more. Kids loved getting to use the same programs as the professionals to bring their creativity and imagination to life on their computer screens.

**BATMAN AND ROBIN**

# A PLACE TO BECOME SUCCESSFUL

The Club teams up with local community groups to offer a truly unique program in our community to help the kids who really need extra support – the Twilight Education Project. This program is designed to help English Language Learner families from low-income backgrounds. Every member of the family, from babies, to school age kids, to teens, and even parents, all get the chance to learn and build the foundation for a better life.

Three nights per week throughout the entire school year, the Boys & Girls Club's fleet of buses picks up whole families from 24 street corners throughout Huntington Beach, Fountain Valley, and Westminster and brings them to Golden West College. Once they arrive, the whole family gets the chance to learn. Moms and dads get ESL (English as a Second Language) education, job skills training, and workshops in early childhood education topics and life skills. School age kids get homework help, tutoring, mentoring, and enrichment programs. Preschoolers get English language focused instruction that helps them enter kindergarten on a more even footing with their English speaking peers. Babies as young as eight weeks get loving care while their parents and big brothers and sisters are learning. Since the

program runs right through the dinner hour, healthy meals are provided each night for the children.

What makes this program so special is that it is a real partnership, in all the best senses of the word. In Twilight, the Boys & Girls Club works together with Huntington Beach City School District, Huntington Beach Union High School District's Huntington Beach Adult School, Ocean View School District, Fountain Valley School District, Westminster School District, and Golden West College. This group has been working together as a team for 15 years to make this program available to the families that need it. More than 400 children and parents participate each year.

In 2017, as a result of participating in Twilight, nearly half of parents got a job, a raise or a promotion. 96% of parents reported that their kids were doing better in school. 97% of parents said they were more involved in their children's education. And, 94% of parents reported being able to understand their child's teachers and school administrators better. This program gets results and it makes a big difference for the families who need it most. Best of all, thanks to supporters like you, every family that needs it can access this program because it is 100% free for families!

## How you CHANGED LIVES in 2017

Twilight breaks  
down every barrier  
to success. It's  
scheduled after the  
workday, childcare  
and transportation are  
provided, and it's

**100% free!**

# How you CHANGED LIVES in 2017

Consider joining an elite group of caring community members who invest \$50,000 or more in the Club's ENDOWMENT to ensure that the Club is here for generations of children to come.

Celebrating our Past  
Securing our Future

# A PLACE TO BECOME INVESTED IN THE...

As Boys & Girls Clubs of Huntington Valley celebrated its 50th year of changing children's lives for the better, the organization established an endowment fund that will help make sure the Club is here for the next 50 years to keep helping the kids who need the Club the most.

As you know, the Club is a financially stable 50 year old institution that operates on a balanced budget. However, even the most stable institutions need a safety net. Your support of this new endowment fund will make a big difference in these important ways. First, your support of the endowment will ensure that the Club can remain stable in times of unforeseeable challenges, whether large or small, such as a change in the economy that negatively affects charitable giving or a counted on local funding source changing its giving focus. Second, your support of the endowment will help the organization stay competitive, by offering top quality programming in outstanding facilities, run by exceptional staff. Lastly, your gift will allow the Club to pursue opportunities for growth that it might not otherwise be able to take advantage of. With your support, the Club will continue to meet our community's growing needs for generations to come.

There are more children every day who need the Club in their lives, so the Boys & Girls Club is constantly growing. Over the last 50 years, the organization has gone from reaching just a few dozen children in its earliest days to now helping more than 10,800 children each year.

As our community's needs grow and change, so does the Boys & Girls Club. That's why over the years, the Club has grown from one site to seven, including two preschools, four school age Clubs, and a performing arts and fitness center. 50 years ago, only kids who were within walking distance could benefit from the Club. Today, the Club owns 18 yellow school buses that transport kids to and from 43 schools in five local school districts. By bringing the kids throughout Huntington Beach, Fountain Valley, and the surrounding communities to the Club, the Club is able to help more children more often.

Thanks to donors like you, including an elite group of investors in Club 50 who have committed to giving \$50,000 or more to the endowment, the Club's endowment will help the organization continue to rise to new challenges and meet our community's ever-growing need for quality youth programming. Whatever the next 50 years bring, your gift will make sure that the Club is ready to reach more children every day, changing their lives for the better.

Ready to learn more about the endowment or Club 50? Call Laura at 714-309-4962 or email [laura@bgchv.com](mailto:laura@bgchv.com).

## NEXT 50 YEARS

## A 50-Year Journey of Helping Kids Reach Their Full Potential

# A PLACE TO BECOME

**1967**

Boys Club of Huntington Beach and Fountain Valley Boys Club are founded.

**1974**

Girls Club of Fountain Valley opens its doors.

**1979-1982**

All three Clubs become co-ed.

**1981-82**

Girls & Boys Club of Fountain Valley-Huntington Beach (formerly Girls Club) moves to Huntington Beach and opens Kid Connection Branch, Learning Center Preschool and ClubHouse Academy.

**1982**

Huntington Beach and Fountain Valley Boys & Girls Clubs merge forming the Boys & Girls Clubs of Huntington Valley (BGCHV).

**1992**

The Huntington Beach Branch opens at McCallen Park.

**1995-1996**

BGCHV merges with Girls & Boys Club of FV-HB, making BGCHV the largest youth-serving organization in the community.

**1997**

The Kingston Branch opens at Mile Square Park in Fountain Valley.

**2003**

The Club partners with local school districts to launch the Twilight Education Project, a program that helps low-income English language learner families succeed.

**2005**

BGCHV begins operating the Golden West College Child Development Center, beginning a new partnership with the college.

**2006**

The ClubHouse Academy performing arts and fitness programs get a dedicated center in Fountain Valley.

**2011**

The Club opens the Robert Mayer Child Development Preschool, the first of three buildings to be built on Golden West College's campus.

**2012**

The Oak View Branch opens, serving Huntington Beach's most impoverished community.

**2015**

The Club reaches the major milestone of serving 10,000 youth each year!

**2016**

The Club opens the Pacific Life Foundation Branch and the Harry and Jayne Board Gymnasium, completing the 3-building Kingston Technology Family Campus at Golden West College.

**2017**

The Club celebrates 50 years of helping children reach their full potential.

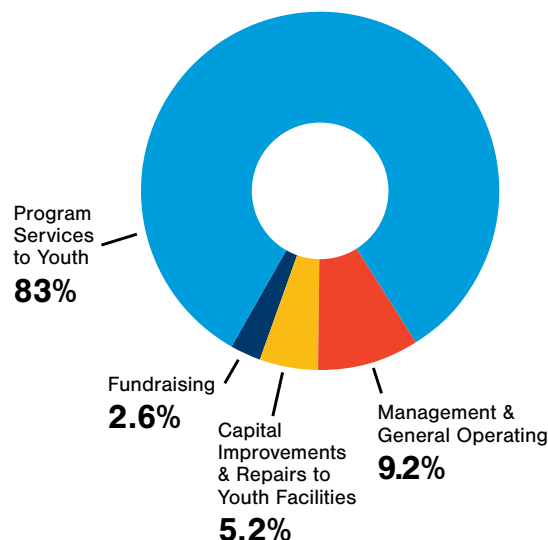

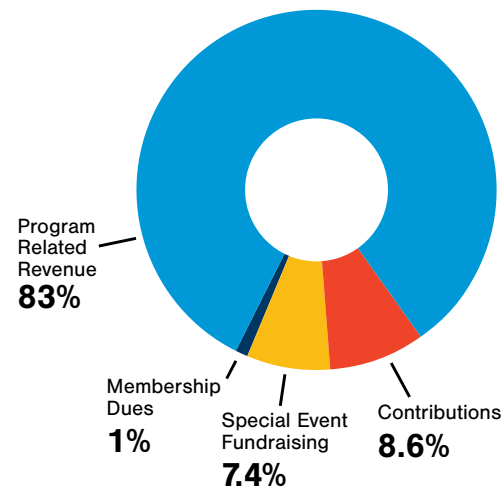

To better serve the community, the Clubs offered programs over the years at school sites that closed when the properties were sold and developed into housing tracts (Bushard Middle School, Lighthouse Lane, Nieblas School). The main journey is reflected above.

# How you CHANGED LIVES in 2017

Before any program scholarships are applied, the Club's after school programs already cost about **60% less** than the average cost of care for school age kids in Orange County.\*
